LODI CABLE T.V.
COMPLAINT

City Clerk Reimche presented the following letter which had been received from Joe V. Miller, 1022 Tudor, Lodi.

"Council people,

For the past several months my wife and I have been complaining to King Video Cable - Lodi about poor reception on our television.

In early June we contacted King Video Cable and complained of poor picture quality. A repairman was dispatched. He inspected the underground cable to our home. He explained to my wife that "severe" problem existed with the cable in the Royal Crest area. Furthermore, he stated that he was the only repairman for Lodi and he was only authorized to repair minor problems - and that ours was major in nature. We were told we would have to wait until they had hired more repair personnel. We waited.

Approximately one (1) month elapsed at which time we sent a letter to King Video Cable stating that we were tired of waiting and that if repairs were not made within ten (10) days we would complain formally to the City Council. The repairman was dispatched promptly and some adjustments were made - and there was some improvement in the t.v. picture, yet far from acceptable. The repairman stated that our reception was "as good as it would get" until the major repairs were made.

One more month elapsed - poor reception persisted. Another call to King Video Cable - again the repairman was dispatched. More minor adjustments - poor quality reception persisted. The repairman then indicated that our reception was "as good as could be had" in Lodi.

Shortly thereafter - King Video Cable called my wife and indicated that we would receive one (1) month's credit, but that no further compensation would be allotted.

Currently we have poor reception and a dismal picture on our Showtime channel.

We have, on several occasions, observed friend's televisions and we were surprised at the "perfect" reception they received.

We feel that we are entitled to much better reception and are writing to you to make you aware of how unhappy we are with our current cable reception and their apparent apathy in regards to improving our current cable system.

We cordially invite each and every one of you to our home in order to observe the t.v. reception we are receiving. You may then decide for yourselves if this is the best reception to be found in Lodi.

Sincerely,
s/Joe V. Miller
1022 Tudor
Lodi, CA 95240"

Council referred the matter to Staff for follow-up.

1536
REQUEST TO EXTEND
DIAL-A-RIDE AREA
TO INCLUDE ARBOR
MOBILE HOME PARK

City Clerk Reimche presented the following letter that had been received from Henry M. Hirata, Director of Public Works for San Joaquin County:

"As you are aware, in the 1983-84 Unmet Transit Needs Determination adopted by the San Joaquin Council of Governments (COG), the Arbor Mobile Home Park in the Lodi unincorporated area was determined to have an "unmet transit need". According to an Acampo "reasonableness" survey conducted by the COG it was concluded that the need was "reasonable" to meet. This reasonable criteria is based on the ability of the County to negotiate with the City of Lodi for expansion of the City's existing Dial-A-Ride Service.

In accordance with the Board of Supervisors direction of July 3, 1984, Public Works staff has been directed to negotiate extension of service to Acampo.

Enclosed you will find a copy of COG's Acampo Dial-A-Ride survey with its resulting conclusions. Pursuant to our conversations and based upon the survey, it is proposed that the County contract be modified to include the Arbor Mobile Home Park area under the same provisions and format as the Woodbridge area with the County responsible for the cost of the Acampo service area.

The County remains indebted to the City of Lodi for its continued cooperation and support of this effort to accommodate Lodi area residents."

Following a lengthy discussion with questions being directed to Staff, Council, on motion of Council Member Pinkerton, Olson second, referred the matter to Staff for further investigation. It was further requested that the Arbor Mobile Home Park be contacted about their willingness to commit themselves to a set or modified set schedule for ridership under Dial-a-ride.

Upon further geological review, we feel that the property does not warrant the continuation of rental payments at this time.

REQUEST FROM
SOUTHERN PACIFIC
TO INCREASE RENT
ON PARKING LOT
BETWEEN ELM AND
PINE STREET

Council was apprised by City Clerk Reimche that for many years the City of Lodi has leased a parcel of land located at the corner of Sacramento and Elm Streets which parcel is used as a parking lot.

The City became involved with the property through an effort to solve a problem of mutual concern to the Southern Pacific and the citizens of Lodi, the unsightly condition of the property. The Southern Pacific Company benefited from this agreement by being relieved of the maintenance problems it was experiencing with the property and the City justified the expenditure of funds to improve the property on the basis that the public would receive some benefit by using the lot for parking.

Over the years the amount of the yearly rental for the parcel was negotiated to represent the approximate amount of property tax charged to the property. The City has, since January 1, 1975, paid an annual rental of \$650.00 for the property.

Letters have been received from the Southern Pacific Land Company proposing that the rental for this property be increased to \$1,950.00 per annum effective October 1, 1984 and to \$3,500.00 per annum effective October 1, 1985. It is further proposed that all other terms and conditions of the lease remain the same.

City Manager Graves gave additional information regarding the matter and responded to questions.

A lengthy discussion followed with questions regarding the subject being directed to Staff. On motion of Council Member Olson, Hinchman second, Council referred the matter to Staff for review and recommendation.
